

Q.6: Write a program to check whether an alphabet is a vowel or consonant.

```
void main() {  
    String alphabet = "a";  
  
    if (alphabet == 'a' || alphabet == 'e' ||  
        alphabet == 'i' || alphabet == 'o' || alphabet == 'u') {  
        print("$alphabet is a vowel");  
    } else {  
        print("$alphabet is a consonant");  
    }  
}
```
